ABOUT US:

Kerol paints are the Manufacturer and supplier of Industrial and decorative paints for more than 30 years. The process of this Evolution and growth began in 1985. Our performance is anchored today in a variety of decorative and industrial paints which continue to gain an increasing share of the highly competitive Indian market. We provide tailor-made paints to the customer's requirement. We have a distribution network of 500 well-reputed retailers to reach every corner of Maharashtra and Mumbai. Our production team is managed by experienced, qualified paint chemists and engineers. All batches of finished products are individually tested and passed by the in-house paints application laboratory before release. We also manufacture decorative and industrial water-based paints under Brand name of Flexiguard. We pay highest regard to health and safety of those using our products and the environment in which they live and work. We at Kerol Paints, monitor our service levels closely; from order handling to speed of delivering material, everything we do is carefully measured and recorded. What we do is setting standards for ourselves, meeting them and then surpassing them. We are seen as the company that gets it right!

Flexiguard Acrylic Wall Putty

Flexiguard Acrylic Wall Putty is co-polymer base interior acrylic paste & powder form putty, which can be easily applied on plaster, gypsum or POP. The ingredients are carefully selected, which consist of best quality Sand, acrylic polymers, minerals, additives, anti-bacterial agents. It is smooth finish interior wall putty. It is Fungus & Bacteria resistance. It is a ready to use paste & powder form which can be easily applied with Putty Knife which is useful for consistent coating all over. No priming required which saves the material & application cost of primer.

Coverage : 15 - 18 sqft/kg for 2 coats on smooth surface

Packing Sizes : 1kg, 5kg, 20kg, 30kg

Flexiguard Cement Putty

Flexiguard Cement Putty which can be used to give the walls a smooth finish. It also fills up the holes & undulations existing in the substrate & can be used for External as well as Internal surfaces. Being water repellent it prevents seepage or dampness up to certain extent. As the mixture is co-polymer it has good strength & high durability. It comes in two different finishes viz. coarse & fine. Being cement base it can be applied in thickness of 4-6mm in multiple coats depending upon the surface.

Coverage : 12-14 sqft per kg for 2 coats on smooth surface, 7-8 sqft/kg for 2 coats on rough surface

Packing Sizes : 1kg, 5kg, 20kg, 40kg

Flexiguard Tex Designer Texture

Flexiguard Tex is an acrylic, semi-viscous paste containing quartz, aggregates, acrylic polymers, minerals, specially formulated to withstand varying climate conditions & provide a long-lasting elegant look to the surface. It also gives opportunity to create different designs. Textures can be used for interior as well as exterior walls. It imparts extra thickness to the surface making it water-resistant. Very useful in hiding existing cracks undulations. Comes in different designs & thickness viz. Scratch, Roller, Bubble, Dhoolpur.

Coverage : 2-3 sqft/kg coat.

Packing Sizes : 25kg, 30kg

Flexiguard Exterior Wall Primer

Flexiguard exterior wall primer gives Excellent opacity and whiteness. Improves appearance of top coat. Does not chalk and can be applied on adequately cured fresh plaster. Does not require curing with water. Provides excellent adhesion to topcoat emulsions. Prevents peeling off of top coat emulsions
Coverage : 1 coat up to 120-140sqft/Ltr

Packing Sizes : 1L, 4L, 10L, 20L

Flexiguard Interior / Exterior Wall Primer

Flexiguard interior Wall primer can be thinned to application viscosity by adding appropriate amount of water. It's special features are easy brushing, excellent covering, alkali resistance, quick drying and good sealing properties. It is specially fortified with fungicides.

Coverage : 1 coat up to 225sqft/Ltr

Packing Sizes : 1L, 4L, 10L, 20L

Flexiguard Plus Acrylic Base Coat White

Flexiguard Plus Acrylic Base Coat White is a co-acrylic base primer which is specially formulated in a way that it can be used for both internal & external application. The contents of Flexiguard Plus are such that it gives the surface a smooth finish which is useful for internal application at the same time imparting opacity for external surface. It helps in reducing the consumption of the top coat as it substantially reduces the porosity of the substrate Flexiguard Plus is an economy product with high value additions

Coverage : On normal masonry surface brush applied: 110-130 sqft/Ltr coat depending upon the surface

Packing Sizes : 1L, 4L, 10L, 20L

Flexiguard Acrylic Distemper

Flexiguard Acrylic Distemper is co polymer water based interior wall finish that gives smooth finish to the walls. It is economical & low cost. Variety of shades can be developed having longer shade retention & smooth & matt finish
